

**BOWATER DOORS
COLLECTION**

Bowater Doors is a leading UK manufacturer and supplier of composite doors to the retail trade and housebuilders.

Our long-standing business has built a reputation for providing quality products, technical expertise and excellent customer service.

The combination of our products and high grade finishes creates energy efficient, durable and stylish residential entrance doors delivering some of the lowest U-values the industry has to offer.

ENERGY EFFICIENCY | QUALITY | DURABILITY

DOOR DESIGN

The front door is a key focal point of any home; it is the first impression to visitors, an insulator and protector. Bowater's doors bring together functionality, security, and aesthetics to create an exceptional entrance for any home.

Bowater Doors offers one of the most secure door solutions on the market. The Glass Reinforced Plastic (GRP) skin that encases each door is tough and durable. A steel reinforced frame and slab provide additional security, twin compression seals increase the energy performance of the installation, and premium hinges add optimum operation.

THERMAL EFFICIENCY

We regularly test our doorsets inhouse, to demonstrate their thermal efficiency. The results consistently show that (unglazed) Bowater doors can achieve U-values as low as 0.8 W/m²K. This can help door customers to make savings on energy as well as reducing a property's CO₂ emissions.

68mm DOUBLE REBATED COMPOSITE DOOR

A rebate is a channel, cut into the edge of the door that allows the 'slab' to fit tightly against the frame. Bowater's double rebated composite door is a substantial 68mm thick slab.

Being 54% thicker than a single rebate 44mm slab, it provides superior thermal, weather, and acoustic properties by comparison.

Secured by Design upgrades are available on Bowater's 68mm double rebated doors (and on 44mm single rebates).

SECURED BY DESIGN (SBD)

Secured by Design is a UK Police Preferred Specification product accreditation scheme which aims to improve the security of buildings and their immediate surroundings to deter and reduce crime.

The scheme supports Bowater Doors' commitment to delivering doorsets that assure safety and security.

SBD security upgrades can provide:

- PAS 24:2022 Certification
- Security multi-point lock
- Security glazing cassette & laminated glass
- Letterplate security hood, door chain & eye viewer

DOOR COLOURS

Bowater's 68mm composite doors are available, as standard, in white, green, blue, black and red and our door frames are in white. However, our paint studio can supply door slabs and door frames in any RAL colour.

Colours shown in this brochure and on Bowater Doors' website are for illustration only. For a precise colour reference please contact your retailer.

FEATURES & BENEFITS OF OUR 68mm DOORSET:

- A steel reinforced frame for added security.
- Steel reinforcement on the door slab for more strength.
- A 10 year warranty as standard.
- Twin compression seals for energy efficiency.
- Highest weather tightness (3A).
- Premium hinges for optimum operation.

ACCESSORIES

Bowater Doors offer a stunning range of accessories in a choice of colour options with both classic and contemporary styles. **Where accessories differ from Bowater Doors’ range, samples of the hardware will be required prior to the production of doors and panels.**

* Offset Pull Bar only used for 44mm doors (single rebate).
Straight Pull Bar only used for 68mm doors (double rebate).
Pull Bars are not available with Secured by Design upgrades.

We recommend that **Stainless Steel** accessories are specified where a door may be subject to extreme environmental conditions, such as coastal areas.

OBSCURE GLAZING

Bowater Doors’ glazing units are manufactured in accordance with British Standards. Clear and satin glazing are available along with the following obscure glazing options.

AUTUMN

A textured glass with an attractive leaf design. It provides level 3 privacy (medium obscuration).

CONTORA

A popular choice that provides level 3 privacy (medium obscuration).

STIPPOLYTE

A well-established and popular design that provides level 4 privacy (medium/high obscuration).

COTSWOLD

Cotswold textured glass is designed to resemble tree bark. It provides level 5 privacy making it ideal for front and back doors (high obscuration).

COLOUR OPTIONS

Enhance your Bowater Door with a splash of colour and create something truly individual. Choose from our standard range of colours or get us to exactly match your perfect colour scheme. Our in-house paint facility can create a fully finished door in any RAL colour and we can even colour the frames to match your new door*.

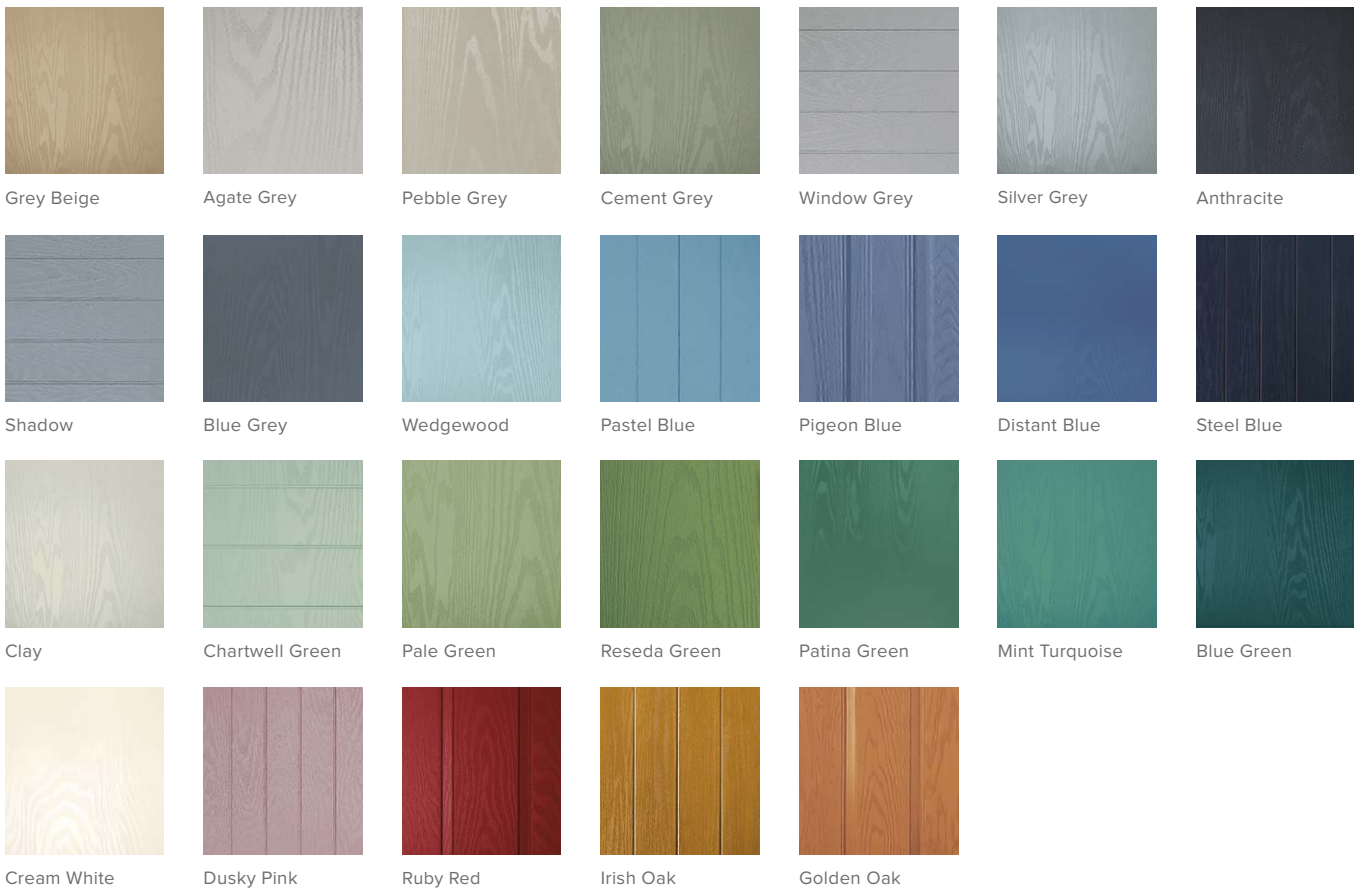

STANDARD COLOURS

Bowater Doors are available in 5 standard colours to complement your glass designs and hardware options to create a timeless, classic appeal.

BESPOKE COLOURS

At Bowater Doors we are able to manufacture your door to any RAL colour to really make your home stand out from the crowd. Below are just a selection of colours available for the Bowater Doors collection - please discuss colour options for doors and frames with your retailer.

PLEASE NOTE: Colours shown in this brochure and on Bowater Doors' website are for illustration purposes only and may differ from the finished product. We cannot be held responsible for colour differences. For a precise colour reference please contact your retailer.

* White is standard frame colour. Frame will be a solid colour. Additional cost will apply for frame painting. RAL colours available at additional cost.

FD30S FIRE DOORSETS

Alnwick FD30S

Cuthbert FD30S

EXCEPTIONAL FIRE & SMOKE PROTECTION

Our composite Alnwick, Bede, and Cuthbert style of doors can be supplied to a FD30S specification to provide a resilient solution for resisting fire and restricting the spread of smoke. We also off a Camber flush panel FD30 door please speak with your retailer for more information. The four door styles are supplied in white as standard and the doors (excluding frames) can be painted in any RAL colour.

RIGOROUS TESTING

Bowater Doors was one of the first manufacturers to attain the Government accredited BM TRADA Q Mark accreditations for fire door performance on fire, smoke, and security.

Bowater Doors' fire doorsets are bi-directionally tested to the BS EN 1634-1 standard and assessed to the full PAS 24:2022 Enhanced Security standard. The standard sets out the requirements for testing fire resistance of door and shutter assemblies, including openable windows.

We are a member of Secured by Design, a police initiative to improve the security of buildings and their immediate surroundings. Our fire doors are supplied to the Secured by Design specification, as standard.

FEATURES & BENEFITS:

- A compressed Agrifibre Core door slab.
- PAS 24:2022 enhanced security.
- Bi-directionally tested to BS EN 1634-1.
- Hardwood stiles and rails ensure exceptional strength.
- Resilient and stronger than UPVC alternatives.
- A 10 year warranty as standard (subject to continuity of maintenance records).
- Built-in plug for easy fire door identification.
- AV2 lock combined with a high quality closer delivering reliable, consistent performance.
- AV2E electronic locking system can be supplied.
- Supplied with a Rutland door closer with low operating forces.
- GRP facing for a durable, low maintenance finish.
